

Deepak Chaudhari

Senior Software Engineer (Java/Spring/AWS)

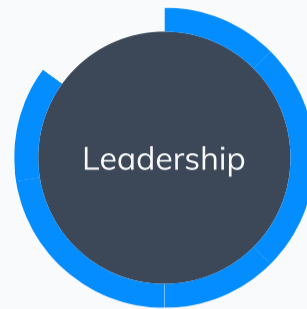

- A dynamic professional with 11+ years of experience in Design, Development, and Analysis of large-scale applications using different patterns/methodologies.
- Engineer who is passionate about good design, clean code, and solving problems.
- Experienced across the full spectrum of software/web development: from designing rich user interfaces, client, and server-side development, to configuring and maintaining hosting environments

Problem Solving

Good Design

Leadership

Team Work

Skills

Spring

Experience developing enterprise applications based on the Java, Spring, Spring-MVC, Spring IOC, Spring DAO, Spring ORM, Spring Batch and Spring Boot frameworks.

Cloud Computing

Good Knowledge of Cloud environment and automation. Understanding of DevOps and think of infrastructure as code and prefer automation over manual implementation.

Amazon Web Services

Extensive experience in Amazon Web Services like EC2, Elastic Load Balancing, SQS and Cloud Front.

Client Side

Experience with Client-side frameworks/Technology (JavaScript, TypeScript, HTML 5, CSS3, WebPack, Gulp, Mocha, Chai, JQuery)

CI/CD

Continuous Integration/Development (CI/CD) experience, code test coverage, and source control using Maven, Jenkins, GIT, SVN, Perforce (P4V).

Testing

Experience executing Test Driven Development, Unit testing, performance testing and development efforts for a complex, high throughput system.

Web Services

Experience designing and developing Restful Web Services. Worked on Swagger API and auto-generated documentation for all REST calls

Debugging

Used Splunk to create dashboards to access the Production logs. Used debugging tools to effectively debug code, find a root cause of bugs, and fix them.

Agile

Experience and passion to work in a fast-paced Agile environment. Ability to face challenges, suggest new improvements to business.

Experiences

1
